Subj: Contract [REDACTED]
Residue Inventory
Final Cost Claim

STATINTL

Enclosed is a copy of the residue inventory on Contract [REDACTED]. This list represents all electronic components not incorporated and delivered in the equipment fabricated under the contract. In addition to the residual components, there was one piece of special tooling acquired under this contract. This tooling is an extrusion die PE 3560, the cost of which was \$475.00. We request your disposition instructions on this residue. We are prepared to offer \$25 for the residual property to expedite close out.

Also enclosed is our final billing on the contract, Public Voucher No. 9, in an amount of \$608.55. We are also enclosing copies of the following finalization schedules, Final Cost Claim and Reconciliation Statement, and Contractors Release. Since your cognizant auditor has just completed the final cost audit on this contract, we request that you forward the enclosed voucher for payment.

Very truly yours,

STATINTL
